The Everwood Mantel Suite creates a warm and elegant focal point that brings both character and comfort to any interior space, paired with the Orion Traditional electric fireplace to blend timeless fireplace styling with modern electric convenience. The fireplace delivers a realistic flame effect with soft glowing embers and authentic log detailing, producing a cosy and inviting atmosphere reminiscent of a classic wood-burning fire, while offering adjustable flame brightness and integrated heating for flexible, year-round use with or without heat. Combined with the natural-inspired design of the Everwood Mantel Suite, this setup forms a sophisticated centrepiece that complements both contemporary and traditional home interiors.
