10 Flame Colours

10 Ember Bed Colours

The Kensington Mantel Suite blends timeless elegance with advanced electric fireplace technology, creating a stunning focal point for any living space. Featuring the Modern Flames Spectrum Slimline fireplace, this package showcases a contemporary flame display with 10 vibrant RGB colour options, complemented by a crystal ember bed and realistic driftwood log set for a striking visual effect.

Designed to provide both ambience and warmth, the Spectrum Slimline offers adjustable flame colours, variable brightness settings, and a powerful integrated heater for year-round comfort. Seamlessly built into the Kensington mantel, the sleek firebox delivers a sophisticated finish that suits both traditional and modern interiors alike.
