

MODEL:
SK168-Combo

QUICK INFO

Classy upright quiet running beer and wine fridge combination designed especially with a shallow depth for areas where space is a premium. Unit is front venting and designed to be free-standing OR built into a cavity; it comes with special brackets to attach to the wall for stability. Both beer and wine zones are 1-18°C.

It has the highest quality inverter-driven EMBRACO brand compressor that is excellent for low energy usage when cooling and the 'dimable' 5 x LED light colour choices of white, red, orange, blue or green make a great feature.

** Remember brackets come with unit to secure to wall - being so shallow it has a small chance to tiple if empty and opening door **

PARTS AND ENERGY INFO
