The Sterling Mantle Suite delivers a refined and contemporary focal point that enhances any living space, paired with the Orion Traditional electric fireplace to combine classic styling with modern electric convenience. The fireplace produces a realistic flame effect with glowing embers and detailed log visuals, creating a warm and inviting ambience reminiscent of a traditional wood fire, while offering adjustable flame brightness and integrated heating for year-round comfort with or without heat. Together, the clean lines of the Sterling Mantle Suite and the authentic look of the Orion Traditional create a sophisticated and versatile centrepiece suited to both modern and timeless interior designs.
